

Math Class

Beginning of Class- When you enter the classroom, you are to **immediately** 1) pull out your homework, 2) grab necessary materials, 3) find your seat, 4) *write* your homework into your planner, and 5) begin the math warm-up.

Sharpening Pencils- This should be done at the beginning of the class. I suggest purchasing some mechanical pencils and lead.

Individual Work Procedures- Students will **work without talking** during individual/independent activities at all times.

Group Work Procedures- Quiet talking (a soft whisper) is allowed in groups. **Only ONE person** will be allowed to get out of his/her seat at a time if needed to receive materials.

Quizzes/ Testing Procedures- Students are expected to **remain quiet during the entire assessment time**. If there are any questions, students should raise their hand to be recognized. Talking amongst classmates is not appropriate.

Talking and Asking Questions- If you have a question, PLEASE *raise* your hand and **wait to be called upon**. Please remember to listen and respect others as they are talking. Recall rule 2.

Eating and Drinking- There will be NO eating, drinking, or chewing gum in class; UNLESS, you receive a treat from the teacher as a reward OR if there is a special edible activity. You are expected to **clean up after yourself**.

Language- Students should use appropriate language in class at ALL times. "Shut up" is *not* appropriate language. Profanity will not be tolerated.

Trash- **Do NOT get up during class** to throw away trash. Throw away items at the end of class.

End of Class- You are to wait to be **dismissed by the teacher**. The teacher will not dismiss the class until **all materials** are returned (if applicable) **AND** the classroom is neat and returned to original order!
